Welcome to the area of specialization of your major! This is an exciting moment in your academic career so take the opportunity to invest in yourself and think critically about the classes you want to take.

Keep in mind the 7 Learning Outcomes of this major:

Now brainstorm the classes that are suited to the interests you wrote above. Don't worry about refining your class list quite yet, but make a tentative list that sums to 20 graded units. Once you have 5-7 classes in mind, write them below with the name of the class, the shorthand notation, the number of units for each class, and the total number of units for all classes.
